

# Gravity defying stunt first for Bundy

Friday 12th June 2009  
For Immediate Release

Paul Bennet is the only pilot in Australia, and one of only two in the world, to perform the famous "triple ribbon cut" precision aerobatic display. This truly sensational feat involves Paul flying his Pitt S1S special bi-plane cutting three ribbons placed only 16 feet above the ground and 300 feet apart.

On the first pass he cuts the first ribbon with the left wing. On the second pass he cuts the second ribbon with the right wing and on the third pass, hold on to your seats, he cuts the third ribbon flying upside down! This is only the second time this amazing spectacle has been performed in Australia and the first time ever in Bundaberg at the Wide Bay Australia International Airshow 2009. Paul will excite the crowd with many other exacting and jaw dropping daring flying manoeuvres

Held at Bundaberg Airport on the 3-5 July, this airshow is the largest show of its kind in Australia and attracts thousands of visitors from here and overseas. From vintage fighter aircraft, including Russian Migs and Japanese Zeros, to wartime and modern jets like the Hawker Hunter and the F115, this show has them all.

Want to get your feet off the ground? Go for a ride in T28 Trojan Warbird fighter. If you fancy seeing Bundy a little slower, try a helicopter ride or for supreme calm go up up and away in a hot air balloon. Find out more on the Airshow Hotline 4155 0044 or visit the website at [www.widebayairshow.com.au](http://www.widebayairshow.com.au).

This is one sure way of getting up close to all the action for a memorable and remarkable day out and a show that you will be talking about for years to come. Oh, and don't forget your camera!

END
