

Engineered by Bose. Refined by pilots.

With over 30 years of experience engineering and developing noise cancellation technology, Bose offers two aviation headsets - each designed for a different cockpit environment.

NEW

PROFLIGHT SERIES 2 AVIATION HEADSET

The new and improved ProFlight Series 2 offers advanced Bose technology in a lightweight, compact design with a lighter, more supple cable.

A20 AVIATION HEADSET

The A20 Aviation Headset features acclaimed noise reduction, comfort, clear audio and intuitive operation in a familiar around-ear design.
